

Supporting Environmental Research with Integrated Solutions

ENVRIplus Booth @ EGU17

Stands 02-03, Exhibition Entrance Hall (Yellow level 0)

LUNCH-TIME TALK SCHEDULE

Monday 24.04.2017

- 12:00-12:15** Jacques Roy: *'Experimentation to determine future ecosystems responses to environmental drivers (AnaEE)'*
- 12:15-12:30** Dario Papale: *'20 years of eddy flux research in EuroFlux and AmeriFlux'*
- 12:30-12:45** Dimitris Koureas: *'Mobilising quality earth and life sciences data through DiSSCo'*
- 12:45-13:00** Michael Mirtl: *'Building the European Long-Term Ecosystem Research Infrastructure'*
- 13:00-13:15** Hannele Savela: *'INTERACT – an infrastructure for terrestrial research and monitoring in the Arctic'*

Tuesday 25.04.2017

- 12:00-12:15** Riccardo Rabissoni: *'EPOS vision on data, metadata and access to computational research: a cooperative approach within ENVRIplus'*
- 12:15-12:30** Alex Vermeulen: *'The state of greenhouse gases in the atmosphere using global observations through 2015'*
- 12:30-12:45** Nicolas Arnaud: *'The French LTER mirror in eLTER-RI: from Critical Zones Observatories to LTSE'*
- 12:45-13:00** Jaana Bäck: *'Concept for an Integrated Ecosystem and Environmental Research Infrastructure'*

Wednesday 26.04.2017

- 12:00-12:15** Pierre-Marie Poulain: *'Argo in the Mediterranean and Black Seas'*
- 12:15-12:30** Birgit Klein: *'New developments in the global ocean observing system Argo and its European component EuroArgo'*
- 12:30-12:45** Steffen Zaccharias: *'TERENO – A German example for integrated environmental research'*
- 12:45-13:00** Ari Asmi: *'Global environmental observations under pressure - new responsibilities for Europe?'*

Thursday 27.04.2017

- 12:00-12:15** Niku Kivekäs: *'ACTRIS – Providing services for atmospheric sciences'*
- 12:15-12:30** Andreas Petzold: *'Global-Scale Atmosphere Monitoring by In-service Aircraft – Current Achievements and Future Prospects of the European Research Infrastructure IAGOS'*
- 12:30-12:45** Mila Rodenas: *'The EUPHORE chambers: a shared research platform to study atmospheric processes'*
- 12:45-13:00** Vincent Michoud: *'The LISA simulation chamber facilities: description and applications'*
- 13:00-13:15** Massimo Cocco: *'EPOS progress towards the construction of a pan-European delivery framework for solid Earth Science'*

Friday 28.04.2017

- 12:00-12:15** Werner Kutsch: *'Integrated greenhouse gas observations: A key for gaining knowledge on global climate change'*
- 12:15-12:30** Sylvie Joussaume: *'The Infrastructure for Climate Modelling in Europe – IS-ENES'*
- 12:30-12:45** Laura Beranzoli: *'EMSO ERIC - Europe from the Ocean Surface to below the Seafloor'*
